ABOUT ME

Passionate about web development goals is to achieve a good position by doing satisfying work in the IT field, strongly focused to complete the task in fast-paced environment.

PROJECTS

- **Amazon Portal with User Authentication - Java (Servlets and SQL)**
  - Developed an Amazon-like e-commerce portal using HTML, CSS for the frontend, and Java Servlets and SQL for the backend.
  - Implemented secure user authentication, login functionality, and new account creation, with user data stored in an SQL database.
  - Designed a responsive home UI similar to Amazon's, displaying personalized content after successful user login.

- **W3Schools Clone - React**
  - Developed a W3Schools clone using React, featuring interactive tutorials, intuitive navigation, and a clean user interface.
  - Leveraged component-based architecture for reusability and scalability, and implemented best practices for performance optimization, ensuring a smooth

- **Calculation Website**
  - Spearheaded the development of a responsive calculation website leveraging HTML, CSS, Bootstrap, and JavaScript to ensure cross-platform compatibility and optimal user experience. Implemented a diverse range of calculation functionalities including numeric calculations and geometry computations
  - Designed and implemented a user-friendly interface with intuitive navigation, allowing seamless access to multiple types of calculations.

INTERNSHIP/CERTIFICATION COURSE

- **Full Stack Java Intern** – Seven Mentor Institute (May/2024 – Oct/2024)
  Worked on end-to-end web application development using Java, SQL, and front-end technologies, enhancing performance and user experience.

- Completed Java Full Stack development Course In SevenMentor Tranning Institute. 2023-2024
